-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Election/Restrictions***

1. This application contains claims directed to the following patentably distinct species:

Species A drawn to a toaster and/or belt containing transverse ribs on the belt.

Species B drawn to a toaster and/or belt with parallel ribs on one side and wavy ribs on the other.

Species C drawn to a toaster and/or belt with a certain density of ribs thereon.

Species D drawn to a toaster and/or belt with beads thereon.

Species E drawn to a toaster and/or belt with flaps and lacing.

Species F drawn to a toaster with a second belt.

Species G drawn to a toaster with a third belt.

The species are independent or distinct because they all contain different structure of the belt and/or add additional belts thereto.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim

Art Unit: 1772

is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species.

MPEP § 809.02(a).

The claims are deemed to correspond to the species listed above in the following manner:

Species A: claim 108.

Species B: claims 111,124,132,141,143,145,146,148,151.

Species C: claim 110.

Species D: claims 138.

Species E: claims 149,163.

Species F: claims 104,116,137,140,150,155,159.

Species G: claim 160.

The following claims appear to be generic: 128,154 and 162.

(Note that even though claims are listed here as being directed to a particular species, the reply must also identify the claims applicants believe are readable on the elected species. These may or may not be the same as those listed above.)

2. Because these inventions are independent or distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.
